## RYDER TO GET IT.

Well Known Topeka Physician Will Be Councilman.

Is to Succeed J. W. Blossom, of First Ward.

STOOD BY THE MAYOR.

His Attitude Has Been That of Cordial Support.

The Selection Is Considered an Excellent One.

Mayor Bergundthal today announced that he would appoint Dr. L. A. Ryder of North Topeka as councilman from the First ward to succeed J. W. Blossom. Dr. Ryder will be appointed and confirmed at the meeting of the city council on November 2.

In speaking of the appointment today, Mayor Bergundthal said: "I did not

know of it until I saw it in the paper. I am in for it now, as I have told the mayor I will take the office. I didn't care about being councilman, and I did not hunt the job. But I will try to represent the First ward in a satisfactory way before the city council."

Dr. Ryder has been somewhat active in First ward politics for a number of years. He is a staunch Republican.

## NOT A COMPROMISE.

Alaska Boundary Decision Was Based on Vancouver's Charts.

New York, Oct. 30.—Former Senator Turner, of Washington, member of the American boundary tribunal, who has just returned, was not willing to discuss the agreement came to be reached, but it was admitted that the decision on giving the two islands in the Portland canal to the United States was based on Vancouver's narrative of his voyage of exploration. The question hinged on whether he had called the water to the south of the island the channel or whether he had gone to the north of them. It was found that he recorded having gone from the entrance to a point of land above the islands in a certain time. To do that it was found that he entered the broad channel, followed it up and turned in between the four islands. This led the commissioners to decide that the two islands lying near the mouth of the canal and opposite Port Simpson belonged to the United States.

Mr. Turner admitted that this was true. Speaking of the two islands he said: "They are of very little value except from a strategic standpoint. I believe that the Transcontinental railroad which is built north of the Canadian Pacific will have Port Simpson for its Pacific terminal. This makes the islands of importance to Canada."

Touching a report that the Canadians charged that Lord Alverstone had been practically won by kindness, the senator said he did not think such a thing could be. "The question to be settled," said he, "was one of right under the international law and Lord Alverstone, who is an able jurist, settled the case on its merits."

Mr. Turner regarded it as fortunate that the commission was able to agree and he considered it a step forward in the settlement of all future disputes.

## TO EXAMINE TEACHERS.

They Will Be Interrogated on Next Saturday.

The quarterly examination of teachers in Shawnee county will be held by Superintendent Wright at the court house Saturday.

Formerly the examinations were held in October, January, April and July, but the law was changed and these July examinations were abandoned and but three examinations a year are held, but they are still called "quarterly examinations."

## SECURES HIS PATENT

The Game of "Stock Exchange" Is Now Covered By U. S. Patent.

Mr. Harry E. Gavitt Was the First to Publish, Copyright and Patent the Burlesque Stock Market Card Game.

This Game Is Making a Great Hit in the East and Is Being Copied After by Several Eastern Concerns

Mr. Harry E. Gavitt has just received notice from his attorneys in Washington that his patent on the burlesque stock market card game, known as "Gavitt's Stock Exchange" (G. S. E.) was allowed on October 12, 1903.

When Mr. Gavitt first published, copyrighted and applied for a patent on this game, he did not have the slightest idea that it would prove to be such a rage among the college and society circles of the United States.

Mr. Harry E. Gavitt is a son of W. W. Gavitt and is manager of the Gavitt Printing and Publishing company, and also manager of the Gavitt Medical company, manufacturing chemists, of Topeka, Kas. It was his first idea in publishing this game to distribute the same as an advertising medium for the advertising of one of their well known remedies, known as Gavitt's System Regulator.

The manner in which the game was advertised, and the card game was pronounced to be a winner and a very clever system of advertising by many eastern advertising agencies.

The first lot of these games he had published to be distributed among their 6,000 medical agents, and notified the agents to give them to their customers and he also gave a few sets to his friends. After that the demand became so great for free sets he decided to make a small charge for them.

The demand increased all the more. He then decided to remove the medical aid from the cards, increase the price to 25c per set, using better stock and putting them up attractively for the trade.

It was not long before the demand from book and stationery dealers from all parts of the United States was greater for the game than their printing plant could turn out. Additional machinery was continually added until they were able to fill all orders promptly.

The game spread so rapidly in eight months that it surprised Mr. Gavitt, but he evidently thought it a winner, for he began protecting his rights from the very first and now he has this game protected by three copyrights, trade mark and two U. S. patents, one patent granted October 12, 1903, and another granted September 15, 1896, and also protected in Canada and Great Britain.

It is understood by some that extensive preparations are under way between Mr. Gavitt and a prominent New York law corporation, whereby all infringers on his rights will be asked to put up or show cause for their infringing. Several big law suits are looked for as there is much capital behind the patent.

Mr. Gavitt is a developer of ideas and owns several valuable patents along other lines, gotten up originally for his own use, they proved so successful, he has had them patented. The most complicated of his inventions is his automatic office envelope feeding and sealing machine. This machine will seal 15,000 office envelopes per hour.

His patent artificial horse tail dock, for doing horses' tails up in a stylish manner and giving them the appearance of being docked is a great success and is used by many of the prominent horse owners in all eastern cities. He has other patents pending.

## You'll Make a Mistake

If you don't buy coal now, while we have plenty of the best. There may be a famine this winter. Buy now.

THE SOUTHWESTERN FUEL CO., Phones 771, 133, 144, 8th and Kas. ave.

Scold head in an eczema of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

## GROCERY TRUST QUITS.

The Venture Was Not a Financial Success.

Peoria, Ill., Oct. 30.—H. W. McQuaid, a prominent grocer of Des Moines, and interested in a number of other grocery stores, today announced the end of the Consolidated Grocers of America, which was organized last February, with a million dollars of capital, and which was proposed should control the leading retail groceries of the country. It was organized by Flavel Shurtless, a retail grocer of Peoria, and N. Kawdin of Chicago. Two Peoria stores were secured and afterwards four in Chicago, one in Galesburg and the store of W. V. McQuaid, of St. Paul. Later H. W. McQuaid, of Des Moines, obtained an interest, and Mr. Shurtless dropped out.

One of the Peoria stores closed last Saturday and Mr. McQuaid says the others will close tomorrow night. The closing of the stores in Chicago and Galesburg will follow, but the McQuaids will continue the Des Moines and St. Paul stores.

Mr. McQuaid assigns as a reason for the closing of the several stores that the Consolidated Grocers of America was not a financial success. The stores were not paying ventures and the company will go out of existence.

Chicago, Oct. 30.—W. V. McQuaid, of Des Moines, Ia., who is in Chicago, said that he had bought the holdings of the Consolidated Grocers of America, dissolving the corporation. He will continue the business as an individual. He denies that there are any financial difficulties.

## COMMISSIONERS TO WAIT.

Haven't Decided Question of Appointing Truant Officer.

County Superintendent Wright appeared before the county commission this morning to discuss the matter of the appointment of a county truancy officer.

The commissioners requested Superintendent Wright to delay the discussion until the commissioners could hear from Judge Simons, of Fort Scott, who has a case before him in which the validity of the truancy law is to be decided. The commissioners do not believe that the law is good and they have an idea that the law will be found unconstitutional if it reaches the supreme court.

## MUCH CONSUMPTION HERE.

Still Kansas Has Less Tuberculosis Than Other States.

The state board of health is pushing its fight against tuberculosis, and with this in view it is gathering statistics concerning the prevalence of the disease in the various counties of the state. Kansas is far freer from the disease than most other well populated states, but still it is one of the principal diseases in Kansas.

In the last three months 85 of the 105 counties in the state have reported 390 cases of the disease with 181 deaths. It is noticeable that the bulk of them are along the eastern boundary of the state in the more thickly populated counties. Wyandotte county alone reports 181 cases and 38 deaths. The deaths reported by other counties are as follows:

Atchison, 10; Brown, 5; Cherokee, 9; Clay, 1; Crawford, 9; Decatur, 1; Dickinson, 3; Doniphan, 5; Douglas, 5; Ellis, 1; Geary, 5; Harvey, 5; Hodgeman, 1; Jackson, 2; Jefferson, 1; Johnson, 3; Kingman, 1; Labette, 5; Leavenworth, 6; Marshall, 2; McPherson, 2; Miami, 2; Mitchell, 1; Nemaha, 2; Norton, 2; Ottawa, 2; Riley, 95; Russell, 1; Shawnee, 2; Sumner, 1 and Washington 2.

## Albough in Newton.

State Bank Commissioner Albough went to Newton today to attend the annual banquet of the Harvey county Republicans, which will be held tonight. Last year this banquet was held on Friday, December 12, and the next day Mr. Albough, who had just returned from attending it, fell on the pavement in front of his barn. He was convicted in police court and he appealed the case to the district court. In the defense his attorney, David Overmyer, brought out the fact that other liverymen who have barns near Culp's violated the ordinance also but were not prosecuted.

## WAS CULP SINGLED OUT?

He Was Arrested While Others' Acts Were Ignored.

C. H. Culp was found guilty by a jury in the district court this morning on the charge of violating the city ordinance prohibiting the blocking of streets. Culp operates a livery stable on Quincy street. He was arrested by the police on the charge of obstructing the street by allowing vehicles to stand on the pavement in front of his barn. He was convicted in police court and he appealed the case to the district court. In the defense his attorney, David Overmyer, brought out the fact that other liverymen who have barns near Culp's violated the ordinance also but were not prosecuted.

## Had Been Granted Six Respite.

Atlanta, Ga., Oct. 30.—Millard Lee was hanged here today for the murder of Miss Lila May Sullivan, a respected sister, killed Lila May Sullivan May 20, 1902, just after the minister had pronounced the benediction at Ben Hill, near Atlanta. Lee was granted six respites.

## Passes to a Receiver.

Chicago, Oct. 30.—The business of J. L. Perkins, dealer in iron and tin, has passed into the hands of the Royal Trust company as receiver. The assets are said to be less than \$200,000, with liabilities of \$210,000.

"A dose in time saves lives." Dr. Wood's Norway Pine Syrup; nature's remedy for coughs, colds, pulmonary diseases of every sort.

Dr. L. A. Ryder, Who Will Be Appointed Councilman from the First Ward

after the position to Dr. Ryder until Wednesday night. He was not much inclined to take the place, but I put up a good strong talk, and he finally agreed to take it. I believe he will be a very strong man in the council, and I consider that we are fortunate to get him to accept the office.

"I know that Dr. Ryder is in sympathy with me, especially on the question of the joints. He is in favor of enforcing the law, and will stand by me. As to the other questions up before the city council, I have not inquired Dr. Ryder's sentiments, but I have confidence in his judgment. I have known him a long time and I know he will do what he believes to be right."

One thing which probably went a long ways toward commending Dr. Ryder to the mayor as a First ward councilman is the strong attitude in defense of the mayor's actions during the flood which was taken by Dr. Ryder when North Topeka was holding their "indignation" meetings against the Commercial club, the relief committee, the mayor and everybody else. North Topeka has come to its senses since then, and realizes that Dr. Ryder was altogether right in his attitude. Dr. Ryder was also a supporter of Mayor Bergundthal in the campaign, and has been his personal friend for a great many years. It is rather a peculiar incident that Dr. Ryder has for a good many years been the physician for J. W. Blossom, whose place he now takes in the council.

Dr. L. A. Ryder was born November

and his appointment removes from the city council the only Democrat who was ever elected from that ward.
